

ROOK

PRODUCT SPECIFICATIONS- Rook

The Rook is a high-quality, **CNC machined** directional spotlight that is **20% smaller** than the other spotlights in the Black Knight Series, making it ideal for discrete installations. Treated with our **Omega Black finish**, it converts 6061 Aluminum into an indestructible shell, providing corrosion resistance and scratch-proofing against even the most extreme environments. This compact spotlight is suitable for all MR16 LED lamp style bulbs, offering long-lasting, energy-efficient lighting accents with different color kelvin temperatures and optic beams.

FEATURES & BENEFITS

- Aircraft grade 6061 Aluminum
- Built in the USA
- Built-in insect guard to prevent infiltration
- Dual O-ring protection to completely seal the fixture and eliminate water entry
- Field Serviceable
